

WatchGuard® UTM solutions stop:

- ✓ **Spyware**
- ✓ **Trojans**
- ✓ **Worms**
- ✓ **Web exploits**
- ✓ **Viruses**
- ✓ **Spam**
- ✓ **Blended threats**
- ✓ **Bots**
- ✓ **Buffer overflows**
- ✓ **DoS/DDoS attacks**
- ✓ **Policy violations**

Earth-friendly technology

WatchGuard® is a pioneer in network security. Our award-winning Firebox® X family of unified threat management (UTM) security solutions combines strong application proxy technology and high performance with the industry's best management tools – tools that allow drag-and-drop VPN creation, centralized management of endpoint appliances, and real-time monitoring and reporting for unprecedented network visibility.

As your business grows, Firebox X appliances are easily upgradeable, minimizing the need for costly hardware upgrades. You can increase the number of users and add powerful

Firebox® X Peak™

Ideal for Regional Hub/Enterprise HQ/Data Center (300 users and above)

X5500e (WG55500)

- 2.0+ Gbps firewall throughput
- 8 10/100/1000 interfaces
- 400 Mbps VPN throughput
- 140 Mbps AV throughput
- 500,000 concurrent sessions
- 750 Branch Office VPN tunnels
- 600/600 MUVPN IPSec tunnels (incl/max)
- 1000/1000 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- Fireware® Pro (advanced appliance software)
- VPN failover
- WAN failover
- 200 VLANs
- Model upgradeable to X6500e, X8500e

X6500e (WG56500)

- 2.3 Gbps firewall throughput
- 8 10/100/1000 interfaces
- 600 Mbps VPN throughput
- 170 Mbps AV throughput
- 750,000 concurrent sessions
- 750 Branch Office VPN tunnels
- 600/600 MUVPN IPSec tunnels (incl/max)
- 4000/4000 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- Fireware® Pro (advanced appliance software)
- VPN failover
- WAN failover
- 200 VLANs
- Model upgradeable to X8500e

X8500e* (WG58500)

- 2.3 Gbps firewall throughput
- 8 10/100/1000 interfaces
- 600 Mbps VPN throughput
- 200 Mbps AV throughput
- 1,000,000 concurrent sessions
- 750 Branch Office VPN tunnels
- 600/600 MUVPN IPSec tunnels (incl/max)
- 6000/6000 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- Fireware® Pro (advanced appliance software)
- VPN failover
- WAN failover
- 400 VLANs
- Fiber model available*

*Firebox X8500e is also available with fiber interface support, under the model number X8500e-F (WG58510)

Firebox® X Core™

Ideal for Regional Office/Branches or SMEs (50 to 300 users)

X550e (WG50550)

- 300+ Mbps firewall throughput
- 4 10/100 interfaces
- 35 Mbps VPN throughput
- 50 Mbps AV throughput
- 25,000 concurrent sessions
- 35/45 BOVPN tunnels (incl/max)
- 5/75 MUVPN IPSec tunnels (incl/max)
- 1/75 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- Advanced networking features**
- VPN failover
- WAN failover
- 25 VLANs**
- Model upgradeable to X750e-4, X1250e

X750e (WG50750)

- 750 Mbps firewall throughput
- 8 10/100 interfaces
- 50 Mbps VPN throughput
- 70 Mbps AV throughput
- 75,000 concurrent sessions
- 100/100 BOVPN tunnels (incl/max)
- 50/100 MUVPN IPSec tunnels (incl/max)
- 1/300 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- Advanced networking features**
- VPN failover
- WAN failover
- 25 VLANs**
- Model upgradeable to X1250e

X1250e (WG51250)

- 1.5 Gbps firewall throughput
- 8 10/100/1000 interfaces
- 100 Mbps VPN throughput
- 100 Mbps AV throughput
- 200,000 concurrent sessions
- 600/600 BOVPN tunnels (incl/max)
- 400/400 MUVPN IPSec tunnels (incl/max)
- 1/500 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- Advanced networking features**
- VPN failover
- WAN failover
- 25 VLANs**
- Highest performing Core model

**Available with Fireware® Pro 10 advanced appliance software upgrade (See page 2 for details)

Hardware Quick Reference Guide

security subscriptions to block spam, filter web content, and more with simple software license keys. WatchGuard makes it easy and affordable to customize your security solution to your specific network requirements.

Our newest products – the WatchGuard® SSL 500 and SSL 1000 – let users securely connect to the network resources they need to stay productive, no matter where they are.

All products include an initial subscription to our ground-breaking WatchGuard LiveSecurity®, the most comprehensive support and maintenance program in the industry.

Firebox® X Edge

Ideal for Branch Offices, Small Businesses (up to 50 users), and for Wireless Hotspots

Firebox X Edge e-Series appliances come in wired and wireless models to suit the network requirements of your business.

X10e+ (WG50010)

- 100 Mbps firewall throughput
- 35 Mbps VPN throughput
- 6,000 concurrent sessions
- 6 10/100 interfaces; 1 DB-9 Serial Port
- 5 Branch Office VPN tunnels
- 1/11 MUVPN IPSec tunnels (incl/max)
- 1/11 MUVPN SSL tunnels (incl/max)
- Up to 20 nodes supported (LAN IPs)
- VPN Failover
- WAN Failover (optional)
- Model upgradeable to X20e, X55e

X20e+ (WG50020)

- 100 Mbps firewall throughput
- 35 Mbps VPN throughput
- 8,000 concurrent sessions
- 6 10/100 interfaces; 1 DB-9 Serial Port
- 15 Branch Office VPN tunnels
- 5/25 MUVPN IPSec tunnels (incl/max)
- 1/25 MUVPN SSL tunnels (incl/max)
- Up to 30 nodes supported (LAN IPs)
- VPN Failover
- WAN Failover (optional)
- Model upgradeable to X55e

X55e+ (WG50055)

- 100 Mbps firewall throughput
- 35 Mbps VPN throughput
- 10,000 concurrent sessions
- 6 10/100 interfaces; 1 DB-9 Serial Port
- 25 Branch Office VPN tunnels
- 5/55 MUVPN IPSec tunnels (incl/max)
- 55/55 MUVPN SSL tunnels (incl/max)
- Unlimited nodes supported (LAN IPs)
- VPN Failover
- WAN Failover
- Highest performing Edge wired model

X10e-W+ (WG50011)

This wireless version of the Firebox X Edge has all the functionality of the X10e model, but includes:

- 802.11b/g
- Model upgradeable to X20e-W, X55e-W

X20e-W+ (WG50021)

This wireless version of the Firebox X Edge has all the functionality of the X20e model, but includes:

- 802.11b/g
- Model upgradeable to X55e-W

X55e-W+ (WG50056)

This wireless version of the Firebox X Edge has all the functionality of the X55e model, but includes:

- 802.11b/g
- Highest performing Edge wireless model

An upgrade to Edge Pro advanced appliance software is available for X10e, X10e-W, X20e, and X20e-W; ships with X55e and X55e-W (See page 2 for details)

◆ Wireless SKUs differ for China and Japan. Call your reseller for details.

WatchGuard® SSL

Secure Remote Access from Anywhere, Anytime

WatchGuard SSL 500 and SSL 1000 are the smart choice for businesses that want a cost-effective, easy-to-use, secure remote access and identity management solution.

- Offers the broadest range of mobile device and platform support in its class, including all standard browsers, ActiveX, Java, Linux, Mac OSX, Microsoft AirSync, PalmOS, SonyEricssonT68, Unix, WAP Phones, and Windows CE
- Supports the widest range of applications and resources to keep your mobile workforce productive
- The industry's most comprehensive authentication options to streamline access for administrators and end users, including single sign-on, strong two-factor authentication, and federated identity
- Clustering allows deployment to easily scale as business grows

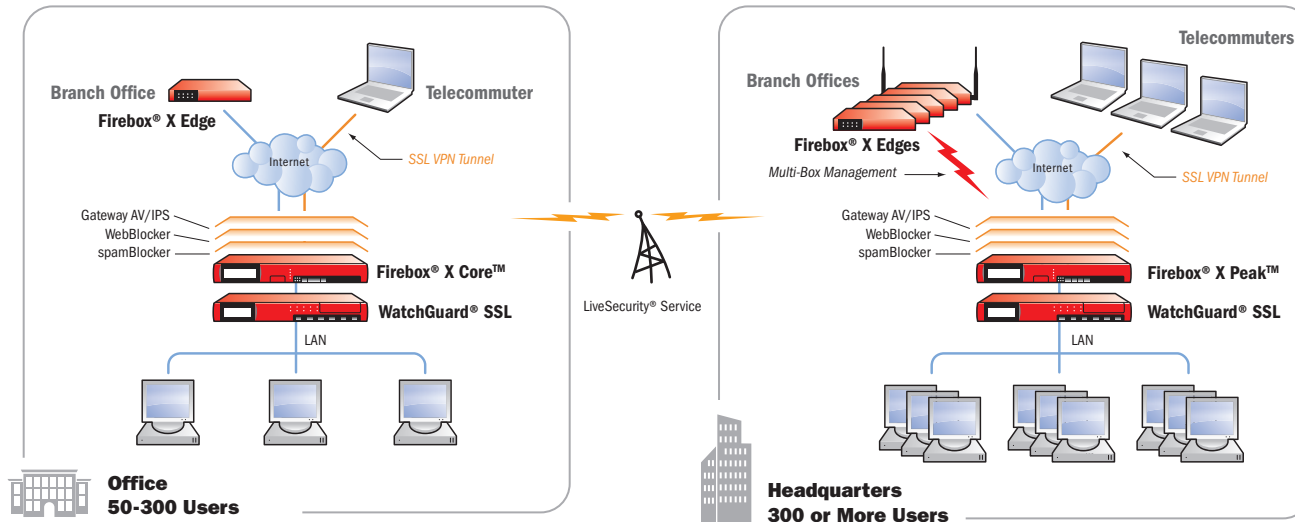

WatchGuard SSL 500 (WG59005)

- 500 concurrent users (maximum)

WatchGuard SSL 1000 (WG59010)

- 1000 concurrent users (maximum)

WatchGuard® Quick Reference Guide

WatchGuard has a security solution to meet the needs of any size business. Protect offices and telecommuters with a Firebox X appliance, adding additional layers of protection with our integrated security subscriptions. Provide secure remote access to network resources anywhere, anytime with WatchGuard SSL appliances. All solutions are backed by WatchGuard LiveSecurity, providing high-value, innovative support services to make the complex job of IT security management easier.

Firebox X UTM Bundle

Get everything you need for complete unified threat management in one convenient package, including:

- Firebox X Edge, Core, or Peak appliance
- WebBlocker* with HTTP and HTTPS support
- spamBlocker* with virus outbreak detection
- Gateway AntiVirus/IPS* with anti-spyware
- LiveSecurity® Service*

*One-year subscriptions

Also available: UTM Software Suite for Firebox X owners includes one-year subscriptions to WebBlocker, spamBlocker, Gateway AV/IPS, and LiveSecurity. Subscriptions can be extended up to three years for guaranteed cost savings.

Why WatchGuard?

Unified Threat Management Leader*

Our UTM solutions provide comprehensive network protection. They integrate application proxy firewall, zero day attack prevention, anti-spyware, anti-virus, anti-spam, intrusion prevention, and URL filtering on a single platform. This greatly reduces the time and cost associated with managing multiple point solutions and significantly improves protection from blended threats.

*IDC Worldwide Quarterly Security Appliance Tracker, Q4, 2007

Zero Day Protection

When security vulnerabilities in software make new kinds of network attacks possible, the built-in proactive defenses of the Firebox X are already working to keep your network safe.

Easy Intuitive Management

WatchGuard System Manager is the intuitive UI used to manage all capabilities of the Firebox X Peak and Core. It can also centrally manage Firebox X Edge appliances that are used as endpoints on a Firebox X Peak or Core network.

Note: In addition to English, you can install a French, Japanese, or Simplified Chinese language pack to use a localized interface in these three languages.

Model Upgradeability

If you need more capacity and security capabilities, model upgrades can be installed in minutes using a simple license key.

Security Subscriptions

Boost protection in critical attack areas with fully integrated security subscriptions to keep spyware, spam, viruses, trojans, and web-based exploits out of the network.

Fireware® Pro Advanced Appliance Software

For Firebox X Core customers* with demanding networks who need VLAN, traffic shaping, QoS, server load balancing, dynamic routing, high availability, policy-based routing, multi-WAN failover, and multi-WAN load balancing. An upgrade to Fireware Pro also increases the number of SSL VPN tunnels to the maximum available per model.

Note: Fireware Pro is included on all Firebox X Peak appliances.

Edge Pro Advanced Appliance Software

Firebox X Edge customers* with demanding networks can easily upgrade to Edge Pro advanced appliance software. Edge Pro provides multi-WAN load balancing, policy-based routing, and WAN failover. It also increases the number of SSL VPN tunnels to the maximum available per model.

Note: Edge Pro is included with Firebox X55e and X55e-W appliances.

Secure Remote Access

Our newest products – the WatchGuard SSL 500 and SSL 1000 – make secure remote access easy and affordable, regardless of your network's size.

- Supports more types of mobile devices and provides access to more network applications and resources, than any other SSL product in its class
- The industry's most comprehensive authentication options, including single sign-on, strong two-factor authentication, and federated identity

Expert Guidance and Support

All WatchGuard appliances come with an initial 90-day subscription to our WatchGuard LiveSecurity, providing:

- Hardware warranty with advance hardware replacement to ensure minimal network downtime
- Access to ongoing functional enhancements for WatchGuard products
- Up-to-the-minute alerts on the latest threats
- Expert technical support and self-help resources
